

Message from Susan:

*Welcome to the wonderful world of pen & ink! There is such a variety of ways that pen & ink can be used. In this class we will be focusing on using pen & ink as the main medium. Ink drawings can stand alone beautifully without the addition of colour. However, you might find it fun to add a touch of colour to some of your drawings. You are welcome to bring some watercolour pencils or paint as stated on the supply list. If you plan to use a lot of paint then you may want to bring hot press watercolour paper instead of Bristol drawing paper. You will not need colour for the first class if you would like to talk to me about it first.*

*If you are worried about the drawing aspect due to inexperience or lack of time, you are welcome to trace on the basic image from the photocopy to get a head start on using the ink. If you're an old hand with a pencil and would like to get more practice in with your drawing, then you may draw the image freehand.*
